

**UNISON**

**UNISON says  
BRITAIN NEEDS  
A PAY RISE**

**JOIN US AT THE  
MARCH AND RALLY  
SATURDAY  
18 OCTOBER 2014**

## Let's all get marching for fair pay this Saturday

**There's still time to mobilise for the marches and rallies  
in London, Glasgow and Belfast**

Whatever the government claims about a recovery, wages have not recovered - and that's why, across the UK, regions and branches are organising for Saturday's demonstrations.

The UK has one of the highest proportions of low-paid workers in the developed world: one in five earns less than the living wage and has to rely on benefits to make up the difference - and that includes large numbers of UNISON members delivering vital public services.

We need as many members as possible to take to the streets of Belfast, Glasgow and London to deliver a clear message: we need a pay rise - because we're worth it.
