To All Staff who took part in Industrial Action on Monday 13th October.

We, as a Union, would like to say a big THANK YOU to everyone who took part in the Industrial Action on Monday 13th October.

As you are aware at 07.00 there was a huge walk out of both road and EOC staff.

We believe that the figures being reported in the Press, that only a third of staff refused to respond, are a misrepresentation of the amount of staff that joined picket lines across the region.

We do know that resources available on Monday were bolstered by managers on DMA's, training instructors with newly qualified graduate paramedics on DMA's and St Johns vehicles.

Once again thank you to everyone who took part. We do realise it was not a decision that was taken lightly but that many staff felt it was the only option in order to make their feelings known.

Thank you for your continuing support in the OVERTIME BAN until 23.59 on Friday 17th October.
