

UNISON Discount Card / Sainsbury's Discount

- The discount on offer is 4%
- So whatever members top up by, Lealta Benefits will charge them that amount less 4%
 - EG. £100 on the card costs the member £96 each top-up
 - It is available to redeem against IN-STORE & FUEL purchases

It is also worth noting that as the Sainsbury's gift card becomes the normal method of payment at the check-out instead of the need for a debit card, cheque or cash the discount can also be used in conjunction with the members Nectar card and any other coupons such as the 5p off per litre of petrol when spending £50 in-store meaning a superb multi-beneficial discount!

The top-up process is as follows;

- Member contacts the helpline on 0844 842 8200 and one of the team will take the following details from them (first call only):

Scheme Name: LEALTA

16 digit UNISON Discount Card number which must have been registered (& valid) over the helpline or via the website

Title
Name
Address
Postcode
Telephone Number

Each transaction top-up they will then ask the member for;

- Debit Card Details
- Amount to be placed on card agreed & this amount minus the 4% discount is debited from the customers bank account.
- The chosen balance is then uploaded to their Sainsbury's gift card within 48 hours.
- The member takes the Sainsbury's gift card in to their closest store and uses the gift card as their preferred method of payment.
- The card can then be topped up via our cardholder helpline as and when required during opening hours.

Key Points:

- The Sainsbury's discount offers 4 pence discount in every £1 which is 4 TIMES BETTER THAN TESCO CLUBCARD which offers 1 pence reward for every £1 spent and the Sainsbury's discount CAN be used in conjunction with the members Nectar Card and any in-store coupon offers!
- With petrol prices rocketing currently 4 pence per pound discount is a saving of around 5p to 5.5p per litre discount dependent upon where you live in the UK!
- Because the discount is pre-purchased it CAN be used in conjunction with any in-store petrol / grocery discount promotions!
- If the cost is lost or stolen we can transfer the balance to a new card if we are informed in time.
- The gift card balance can roll over from week to week helping members save towards events such as Christmas.
- The card can then be topped up via our cardholder helpline as and when required during helpline opening hours however a minimum top up of £5 per transaction is necessary.
