

Dear Colleagues,

The West Midlands Ambulance Service NHS Trust has received a complaint from a member of staff saying that they were able to 'Google' themselves and find an article that appeared in the Weekly Briefing on an external website, namely our UNISON West Midlands Ambulance Branch site.

As the Weekly Briefing is an internal document, the Trust can no longer publish it on an external website unless they ask each individual member of staff featured in that edition for their permission to do so. The practicalities of this are enormous and frankly unsustainable.

Now that the Trust e-mail the Weekly Briefing to hundreds of staff each week, and due to the possible implications of us running the document, the Weekly Briefing from WMAS will no longer appear on www.wmambo.co.uk

Anyone wishing to receive the WMAS Weekly Briefing via their personal email address can contact the WMAS Press Office on pressoffice@wmas.nhs.uk

Please feel free to contact us further if you wish to clarify anything.

Assuring you all of our continuing support.

The Webmaster
